WSB-TV dominates the bigger Atlanta market

WSB-TV is biggest in Atlanta, Georgia . . . and Atlanta is bigger than ever. Confirmed 1960 census figures show over one million people living in the metropolitan area. And month after month more of these people watch WSB-TV. Latest ARB figures, for January through June, 1960, show WSB-TV average share of audience from 9 a.m. 'til midnight at 42.6%—and Atlanta is a 3-station market. This proved preference for one station is sustained by superior local programming, top news service, staff work of unexcelled professional quality, and 12 years of viewing loyalty. More than ever greater Atlanta is the big market in the booming Southeast, and your advertising belongs on WSB-TV.

SB-TV channel 2 in Atlanta is affiliated with The Atlanta Journal and Constitution. NBC affiliate Represented by Edward W. Petry & Company. Associated with WSOC WSOC-TV. Charlotte: WHIO WHIO-TV, Dayton

IT'S POWERful!

Well, our inventory is high enough —

Let's run another I.D. on Bangor's powerful Channel 2.

How about selling our swatches as scatter rugs?

Seldom is one I.D. enough, but powerful Channel Two can produce amazing results. It's the "station with the most" in 121,210 homes in Eastern Maine. And remember, you save an extra 500 with a matching national spot buy on Channel 6 in Portland.

NEWSMAKER of the week

An upsurge in programing and news technique develoment by Time Inc.'s Broadcasting Div. has brought aborereation of the new post of general manager, assigned Frederick S. Gilbert, formerly general manager of Tim who will direct and coordinate, reporting to v.p. Wes Pull

The newsmaker: Frederick Gilbert has been with Ti Inc. since 1935, when he joined the staff of The March of Time. To years later he moved into advertising sales, serving with *Time* at Life in Detroit and Cleveland. In 1946 he returned to New You to become ad manager of Life International. He was named assistate publisher of *Time* in 1948, and became that magazine's general manager in 1954.

In the new post of Broadcast Div. general manager, Gilbert reporto Weston C. Pullen, Jr., Time Inc. v.p. responsible for broadcasting

and real estate operations. Shift of a high official of *Time* magazine to the Broadcast Div. is indicative of the latter's growing importance in the Time-Life organization. Its owned and operated stations: KLZ-AM-TV, Denver; WFBM-AM-FM-TV, Indianapolis; WTCN-AM-TV, Minneapolis, and WOOD-AM-TV, Grand Rapids, Mich.

Gilbert will preside over a growing news bureau operation. In addition to the now-functioning Washington broadcast news bu-

Frederick Gilbert

reau headed by John W. Roberts, which operates in conjunction withe Time-Life news bureau there, a parallel set-up will be install in the new New York editorial headquarters a few months hen-Then the Time Inc. stations will have two sources for daily and was ly special news round-ups and feature stories.

In the film line, experiments have been in the works with a recandid motion picture technique for tv showing. Former Life edit Bob Drew, who devised the technique, directs the project. Two how long films plus several shorter news features for the Time tv statio have already been produced. A wealth of additional film footage expected to be made available thanks to a review, currently underwa of the mammoth March of Time film library.

Commenting on Gilbert's appointment as director of these an other Broadcast Div. activities, Wes Pullen said, "With the welcon addition of Fritz Gilbert to our Broadcasting Div., we are prepare to carry out Time Inc.'s plans for expansion in tv and radio. Whave been in the broadcasting business since 1924, both at the loc and national levels, and we expect to continue to make valuable ar exciting contributions to the medium."

HENRY WATTERSON could have been the "Col. Henry" of WPTR

ecause WPTR creates the kind of exciting, independent dio that would have fit Watterson's temperament like a ove. The "Colonel", as he was affectionately called, saw e news not as news alone but as an obligation to take a sition on it as well. In the process, like WPTR, he lit a lot fires

et this very dissemination of news (48 broadcasts every by) and the independent thinking about that news (edirials whenever and as often as necessary) has made WPTR e outstanding radio voice it is today... and the Number 1 biblic service station in its area as well.

the process WPTR has lit a lot of fires with both audience

and clients, too. According to Pulse it is the dominant station in this 2,000,000 plus market. Local sponsors give it more local advertising than the next three stations combined. At the national level it carries more total advertising than the next two stations put together. In every way—people buy what it has to sell.

Represented nationally by Robert E. Eastman & Co. In New England—by Foster and Creed.

The score for Almanac...90 stations. The total for Greatest Headlines...over 50 stations and still coming! Convincing proof of the tremendous appeal of this short-segment concept for audience, station and sponsor alike! The reason, of course, is its flexibility. A five-minute show slips easily into any time slot. It multiplies exposure and frequency. It allows advertisers to stretch advertising dollars over prime TV times. And the subject matter has high inherent interest and prestige.

AND NOW...ANOTHER PROGRAMMING INNOVATION FROM OFFICIAL...

SPOR FOLIO

Candidates clear the air

Ever since last Monday (22 August), there have been all kinds of whooping and hollering over the fact that Congress passed SJ Res. 207, which suspended Section 315 of the Communications Act as it applied to speeches by the Presidential and the Vice Presidential candidates of the major parties in this election year 1960. CBS president Frank Stanton who has been tilt-

ing nobly at the 315 windmills, lo, these many years issued a statment saying how pleased he was and grateful to the lawmakers fo giving broadcasting this unprecedented opportunity to bring th candidates and the issues in this critical campaign before the people And NBC Board Chairman Bobby Sarnoff hailed the vote as a unqualified and smashing victory for every American within rang of a radio or television set.

Busy Oren Harris, the Representative from Arkansas, of course wanted to know, even before the House passed the legislation whice the Senate had already okayed, whether the networks were planning to sell sponsorships of the forthcoming *Great Debates* or whether they would agree to carry them sustaining. From CBS he got quic assurance that it would not accept advertisers on the simulcast debate between the candidates to be carried by all webs. The other network weren't too positive.

Nixon gets partial 'non-stop' treatment from Paar

In the meantime, Thursday (25 August), just a few minutes as I write this, Vice President Richard Nixon made his appearant on the *Jack Paar Show*. Jose Melis read the Realemon commerci Hugh Downs said, "Now here is Jack in Washington, D. C., with the Vice President of the United States," and there they were.

Downs, in New York, repeatedly mentioned, prior to the Was ington pickup, that there would be no commercials during the Vi President's appearance. And there weren't. He and Jack finish for their alloted time, during which not a single spot was carried However, Jack pleaded with the veep to stay a while, and immediate after a commercial for American Tourister luggage, spots for National Conference of Christians and Jews (featuring Fath Juniper on Brotherhood); the upcoming Bonanza stanza: the Unit States Army; Sunday nights Moment of Fear telling the Eichstory; and a shot of Downs in the New York studio with the autence, we were back with Jack and the Vice President.

Commercials or not I have a very strong suspicion that Mr. Nix won himself more votes with his stint on the Paar show than he w win from the simulcast *Great Debates* and all the other more serio greater or lesser debates he's likely to participate in from now t

one of the

FORWARD

GROUP

National Reps.

Branham Co:

November. For, sometimes abetted by Paar's usual artful and charming I'm-just-one-of-the-folks handling, the Republican candidate made it clear that:

(1) He is a fella who drives a 1955 Oldsmobile. Of course, turned out he also has a big, black Cadillac limousine furnished hir by the Government, but whoever is elected vice president gets on of those for his use. Mr. Nixon drives a 1955 Oldsmobile. (2) H stands on his feet at Yankee Stadium rooting loudly for the Wash ington Senators to clobber the home Yankees, which on that occasion by a 4-2 score, they do. Suddenly he realizes that the folks in Wash ington can't even vote, and here are all these New Yorkers who can and migosh, he's screaming for their ball club to get lumped. Of well, it proves he's not political about his baseball, anyway. (3) H can eat anything, but he just happens to have spent his honeymoo in Mexico City, so he and Mrs. Nixon especially love Mexican foo (It is needless for to me to explain I'm sure, that this was in specif comment on a point Paar raised about Bobby Kennedy's visit Spanish Harlem, where he ate tamales. "How," asked Paar, "a you on Mexican food?") (4) He is the luckiest husband in the world because Mrs. Pat Nixon is and always has been a wonderf Ambassadress of Goodwill without any "backseat driving" from h husband.

Considering that in previous campaigns the Vice President has established somewhat of a reputation, at least according to the morbitter of the Democrats, of being a "dirty" fighter, he could not have presented himself as a more fair-minded, clean-cut, and clean-intetioned politician if he wore wings and a halo. He would not, he said, campaign on age, religion, or indulge in personalities of a kind. He thought Mr. Kennedy a fine man, with much valuable e perience. He only hoped that the people would get out and vote, aft carefully studying the real issues and the position of the two partion the issues. He hoped, and was sure Mr. Kennedy hoped similarly, that personalities would not be played upon in the campain in any way.

All in all—a neat little package

Mrs. Pat Nixon, whom Paar got on stage for about 15 minuwith his little girl, Randy, handled herself with equal artistry.

She was very embarrassed, and blushed that time in London whe she forgot to see that the Vice President's tuxedo was packed, a came time for the dinner for the Queen and there he was tuxedole However, it was no problem, because a kindly newspaper man nam Jim Bassett from the Los Angeles Mirror News loaned Mr. Nixon suit and all was well. (I would like to make a bet that Mr. Nix knows more newspapermen by their first names than any other tential president who ever lived. Not only knows them by their finames, but has an interesting little tale to tell about a large preentage of them.)

Mrs. Nixon also made it clear that the young Nixon daught must be in bed much earlier than the time the Paar show goes that whenever they have slumber parties they watch the show. A so the Republican candidate, jokingly wrapped up the festivities asking Jack for his autograph for the girls. Now how are you go to top that with a *Great Debate?*

his is Dimension: a program service of ntertaining, provocative one to threeninute vignettes in talk and sound that dd new depth of listener interest to the trongest local programs in all radio... nose of the CBS Owned Radio Stations. Imension starts this month on the C-O tations. These seven stations already ommand more attentive listening than II other stations in their markets. Now ith Dimension they give audiences even ore reason to hear your selling message.

This is Dimension:

THE YEAR 2000 What will the fantastic world of tomorrow be like? Artistic, industrial and scientific leaders tell you: William T. Snaith of Raymond Loewy Associates; Dr. Austin Smith, Pharmaceutical Mfr. Association. Their predictions: hospitals that operate on a do-it-yourself basis, banks that supply parts for the human body, drugs that cure all infections; carpets and wallpaper used for central heating, weather control, cordless toaster and lamps and many more.

DOROTHY KILGALLEN INTRODUCES YOU TO PEOPLE YOU'D LIKE TO KNOW The world's most famous newspaperwoman brings you the intimate stories of how Rosalind Russell conquered a personal fear, how Pope John XXIII shows his sense of humor, and fascinating moments in the lives of Joan Crawford, James A. Farley, Fannie Hurst, Marlenc Dietrich, Tony Curtis, Ingrid Bergman, The Duchess of Windsor, actor Marlen Brando, The Queen Mother, Audrey Hepburn, Marilyn Monroe, Hedy Lamarr, Patrice Munsel.

THIS IS MY PROFESSION Leaders in important fields tell what they think about their life's work. Vincent Price: why he considers acting a highly educational vocation. Anthropologist Margaret Mead: how primitive people help us understand ourselves better. Others: Melvin Belli, lawyer; Irwin Allen, motion picture man; Claude Philippe, hotelier; Frank Gibney, journalist; Richard Joseph, travel editor; Ilka Chase, Tony Randall, William Zeckendorf, Tex McCrary, Mischa Elman.

THE WONDERFUL WORLD OF THE TEENS Famous people reminisce: Betsy von Furstenburg feared at 16 that she would never get off the 57th Street bus line; Minnie Guggenheimer thinks teenagers today are more serious than she was; also Air Force Capt. Paul Briand, writer; Suzanne Szasz, photographer; Mark Damon, Roberta Peters, Maria Schell, Roy Cohn, George Q. Lewis, Tony Galento, Mark Goodson.

HOMETOWN Childhood recollections. Hildegarde's father's drugstore in New Holstein, Wis.; "Pappy" Boyington's first plane ride over St. Mary's, Idaho; and other hometown stories from Zsa Zsa Gabor, Margaret Mead, Dick Joseph, Dirk Bogarde, author John Donovan, Peter Glenville, Josh White.

THE WISEST OR MOST INFLUENTIAL PERSON Important guests describe one person who has influenced them: Theodore Bikel remembers an elderly scholar; Roberta Peters, her Italian singing teacher. Also Mark Damon, Ilka Chase, Mischa Elman, Maria Schell, Dick Joseph, Claude Philippe, William Zeckendorf, Roy Cohn, Dr. Maxwell, Mel Heimer.

BENNETT CERF TELLS HIS FAVORITE STORIES Author, editor, publisher, lecturer and TV personality Bennett Cerf, who has had 7 books on the best seller lists, now brings to radio the warmth that made him America's number one lecturer. A new Dimension in radio humor.

THE AMERICAN LANDSCAPE Burgess Meredith and Kevin Mc-Carthy narrate this colorful series of American sound portraits using the full range of radio techniques—sound, music, good writing—to take you to the skating pond, the country drug store, Coney Island, a diner at midnight and many more uniquely American scenes.

THIS IS OUR HERITAGE Hear noted radio actor, Bill Lipton, interpret the writings of the men and women who created our American heritage: Tom Paine, Woodrow Wilson, Benjamin Franklin, Thomas Jefferson, Daniel Webster and others.

AMERICAN PORTRAIT Raymond Massey narrates a moment of greatness from American History, takes you to an actual scene in the lives of the Wright Brothers, Paul Revere, Sam Houston, Alexander Hamilton and others.

"I'll climb a BRAND NEW **TOWER**

> to bring WRBL-TV more coverage!"

WRBL-TV will soon beam to its prime Southeastern market from a new tower more than twice its current height above average terrain. At the same time WRBL-TV will switch from channel 4 to channel 3*. The combination of the new tower and new channel will boost WRBL-TV's total Grade B audience to more than 193,895 television homes in 55 counties of Georgia and Alabama! And when you consider that the Columbus Metropolitan Area alone is Georgia's second largest market with the highest per family income in the state, it's easy to see why Columbus and WRBL-TV are "sound buys" in the marketing plans of more and more top companies!

Call Hollingbery for choice availabilities.

*Target date is September 15, 1960

UBLICATIONS INC.

What gives every evidence of becoming the top spot tv buy for the new season out of Chicago: Pillsbury's (Burnett) 52-week schedules for its mixes in about 100 markets.

The specifics: (1) 30 September is the starting date; (2) day and night minutes will be used; (3) availabilities must be Nielsen- or ARB-rated; (4) the scheduling emphasis will be on Thursdays and Fridays (the shopping days).

(See What's next in tv's cake mix battle? page 31, 15 August 1960 sponsor.)

New business really broke loose for spot radio out of the New York agencies the past week, with Campbell Soup (BBDO), by far, the biggest plum of them all. The Campbell campaign starts this week in about 70 markets.

The orders and availability calls included: Lucky Strike (BBDO); Penick & Ford's Swel frosting & fudge mix (Croot) Watchmakers of Switzerland (C&W), from 26 September to 4 December; Absorbine Jr. WarmUp (JWT), testing; Vick (Morse); Stewart-Warner's Alemite (MacFarland).

The long-termer among the spot tv orders for the fall was from Anahist (Bates) —26 weeks, starting 3 October.

You can judge how much the New York reps were kept spinning the past week from this melange of orders and availability calls: Lever's Breeze (SSCB); Lever's Good Luck margarine (OBM); P&G's Lava soap, Joy, Jif peanut butter (all Burnett); P&G's Oxydol (DFS); Tender Leaf tea (JWT); Noxzema instant shaving cream (Bates); Lux liquid (JWT); P&G's Lilt (Grey); P&G's Blue Comet, Duz and Gleem (all Compton).

Incidentally, R. J. Reynolds (Esty) is re-evaluating its half-hour buys with a view to making changes, if deemed necessary. Also Standard of Indiana has cancelled its news and is talking about using half-hour programs.

Chicago spot tv buying activity included: 30 top markets for an eight-week campaign, starting early October, for three Mars candy bars (NL&B).

If you're a seller of spot tv, you can't help drooling over this one: JWT last week issued contracts for 143 half-hours divided between two stations in the Lubbock. Tex., market.

It was in behalf of Ford and for 52 weeks. KCBD-TV got 117 half-hours and KDUB-TV, 26 half-hours. The programing: syndication series.

Stations in at least 10 other markets are due for similar windfalls.

That plan for a hlitz by Yuban Instant (B&B) in spot tv has simmered down to a puff.

In the final processing, the idea of 60 spots a week was replaced by a dole-out of around three spots per market.

General Foods decided on the strategem of cutting in commercials for Yuban on its various CBS TV nighttime programs.

P&G isn't getting much of an edge on Colgate in finding out the prospects of the market for detergents in tablet form.

On the heels of P&G's test of Salvo (Burnett) there came last week a tv market test by Colgate of a similar product—Vim—via Bates.

SPONSOR-SCOPE continued

With the wholesale changes in programing already made for the fall, there's no guaratee that the items will remain as is even until the end of the year.

In other words, this business of daytime seems to have become geared to two principle (1) unbounded flexibility and (2) uncontained fluidity.

The moral that media directors are drawing from all this: in daytime tv the objective of reach and frequency have practically obliterated concern with the quality and a ture of a particular program.

The latest special offer from ABC TV daytime sales: a minute participation in Dir Clark, providing you buy a quarter-hour elsewhere.

Heretofore Clark had been available only in a quarter-hour unit (\$13,000). The minute participation buyer, however, will not have the benefit of Clark's commercial services

Under the new disposition, the sponsor of a quarter-hour will have a spread of five initiation in the commercials across the week: three from his quarter-hour, one constituting bonus he gets with the quarter-hour and four, the participation in Clark.

Nielsen states that about 150 radio stations have already subscribed to its NC '61 Radio study.

The job of questionnairing and interviewing on this one will take place between mit October and mid-December and the results issued in the summer of 1961.

Surveying for NCS '61 Television will be conducted in March and April, which competween the peak and valley of viewing.

Air media should be a rich gainer from the heightened battle for the baby food market which Beech-Nut's massive buy on NBC TV portends.

Heinz is already on NBC, but is expected to do something about matching Beech-Nut. Other leaders in the field: Clapp and Swift.

BBDO makes the latest agency to combine its air and print media analysis int a single setup: Ed Papazian, broadcast specialist, heads up the merged groups.

Point of significance: BBDO's media people will be looking at print in light of knowledge gathered from tv and radio, like measuring unduplicated reach and frequency.

According to the National Nielsen Radio Index for the four weeks ending I July, Pepsi-Cola and Frito have taken over the leadership in network advertising. Neither account ranked last year. The two leaders were R. J. Reynolds and L&M.

The latest breakdown in terms of homes delivered:

RANK	ADVERTISER	NO. BROADCASTS	TOTAL HOMES DELIVERED
1	Pepsi-Cola	716	342,418,000
2	Frito	306	114,728,000
3	R. J. Reynolds	281	103,017,000
4	General Mills	223	92,436,000
5	Electric Auto Lite	128	85,254,000
6	Metropolitan Life	125	83,230,000
7	Renault	121	79,572,000
8	Liggett & Myers	217	76,960,000
9	Ex-Lax	147	68,394,000
10	Chevrolet	99	65,035,000

Also conspicuous by their absence in the first 10: General Foods and Brown & Williamso

Now that network tv's practically on the threshold of the new season, it's interesting to note that the nighttime schedules will have but four advertisers who weren't there before.

The nighttime newcomers: Shwayder Bros. (Grey); Burlington Mills (Donahue & Coe); Van Camp (EW-Y&R); Squibb over-the-counter products (Donahue & Coe).

Van Camp and Burlington are recent emigres from spot.

Don't believe that report that ABC TV is nurturing the idea of introducing the 30-second announcement to daytime network tv: it is firmly denied by ABC.

How did it all get started? Seems that somebody in ABC daytime sales told a couple of mediamen the network was toying with the 30-second concept and they jumped to the conclusion that it was a cut-and-dried plan.

Quipped an NBC TV daytime sales executive when the report got to him: "That would advance flexibility to a state of limpness."

If you think the cigarettes with their collective 51½ commercial minutes will be cutting a broad swath in nighttime network to this fall, ponder this: the drugs and toiletries will out-total them by at least four commercial minutes.

Here's how the drug toiletries clan will stack up by participations per week:

υ		1 / 1	
ADVERTISER	No. SHOWS	NO. COMMERCIAL MINUTES	ESTIMATED EXPENDITURES
Am. Home-Whitehall	. 9	$11\frac{1}{2}$	\$420,000
Colgate	6	8	380,000
Warner Lambert	4	$6\frac{1}{2}$	160,000
Bristol-Myers	5	6	220,000
P&G	4	6	190,000
Lever	2	3	120,000
Alberto-Culver	2	3	110,000
J. B. Williams	1	3	130,000
H. F. Ritchie	2	2	70,000
Miles & Block	2	3	180,000
Noxzema, Vick, Carte	er 3	4	120,000
Total	40	56	\$2,100,000

(See 29 Aug. 1960 SPONSOR-SCOPE for estimated breakdown on cigarette participants.)

When you've got a competitor looking over your shoulder for any sign of disaffection, a network has to be mighty careful about going back to an affiliate to ask for a revision in compensation.

Take the case of NBC TV. It thinks that the rate structure by which it divvies billings with affiliates is antiquated and all wrong: the methods of selling—like nighttime minutes and daytime spreads—call for different compensation ratios.

But the network finds itself shackled against asking the stations for another riffle of the cards—especially in the two-station markets.

And why the hesitancy? As NBC admits, there's ABC always ready to move in with a bettering proposition of its own.

Relief and reassurance reigns at ABC TV daytime: its per-minute audience has moved back to over the two-million level.

The Nielsen national gave the network daytime-wise an average of 2,050,000 million homes per minute—the highest since March.

The network hit bottom in May with a 1.4 million average, which was a million off the ABC peak.

CBS, NBC and Nielsen will go on in their contractual relations, at least for sother year, with this among the concessions: the rating service will speed up its efforts at ging information to the networks.

The two networks say they'll continue to talk to ARB about a national service meanwhile using the 7-city Arbitron as their overnight service.

There never was anything but a spirit of entente cordiale as far as Nielsen and ABC we concerned. In fact, that 50-market rating was ABC's idea.

In this case you can say that the agency business, like politics, makes strange be follows: Marion Harper, Jr., who is a professed Democrat, has again hauled in the N. Y. Republican State Committee account for his McCann-Marschalk subsidiary.

The same agency handled the Nelson Rockefeller campaign.

Quite voluble among stations that have responded to SRA's campaign f adoption of a single rate are the operations which depend mainly on local braness. Their contention: (1) the single rate may be suitable for radio stations who at the bulk of their billings from national advertisers and local accounts that can affor the national rate, but the large majority of stations look to small local merchants of their revenue. (2) it would be unfair to ask these merchants to pay the same rate national and regional advertisers whose product may be sold in thousands of outlets with the coverage area.

Another argument: while newspapers have practically a monopoly of the markeradio stations are compelled by intense competition to resort to granting special discount frequency rates, saturation packages, etc.

As these dissidents see it, the only way the agency and their clients can be protect against inequitable rate treatment is for the broadcaster himself to exercise integrity.

(See 29 August SPONSOR for latest opinion crossfire anent the single rate.)

The Advertising Research Foundation and the Census Bureau have finally released to data on the latest tv home penetration and here's how they compare with a year ago:

 PERIOD
 METRO TV HOME PENETRATION
 OUTSIDE PENETRATION

 May 1959
 90.8%
 80.0%

 May 1960
 91.0%
 82.2%

Total tv home penetration: 88%, which is figure ARB has been operating on.

Have you noticed how Chicago has become the production center of special interestions?

Walt Schwimmer stated it with his Championship Bowling, Championship Go and Championship Bridge.

Fred Niles Productions' candidate for the same market: Bridge with the Masters. According to the Niles firm, there are 40 million bridge players in the U. S. at there could be as many as 30 million more who'd like to learn the game.

Another midwest trend that particularly concerns Negro radio: gospel singishows.

Pet Milk (Gardner) and Aunt Jemima (C. E. Frank) have been using them wo much satisfaction, the former on 64 stations and the latter, on 25 stations.

Both advertisers have promoted their series with gospel talent hunts.

Behind the sponsorships is this theory: gospel music is as inherent a part of the Negro culture as jazz, and even more suited to the selling of food products.

WMCa PRO/FILE!

It has been said of Americans that they are singularly lacking in tradition. Such sentiments must be regarded with complete indifference. Take, if you will, Ruth Musser's Grandfather Hurd who brought the first silk hats west to Kansas and traded them to the Indians for buffalo skins. A generation before, Great-Grandmother Pattison had the first piano dragged over the Rockies to Colorado in time to celebrate the Comstock silver strike. Some even say that Mrs. Musser harks back to Benedict Arnold; but the troops at WMCA know this to be a calumny circulated by rival stations. psychology major from the U. of Kansas. Ruth Musser joined NBC's New York staff in 1940 and after seven years of buying meat instead of shooting it, decided to remain in the city. Whereupon she upped and settled at WMCA adding still another first to the family history book - Ruth Musser became the only program manager of a major radio station able to increase ratings by doing a Wichita tribal dance.

New enthusiast

For most of the 24 years that I have been active in radio, I believed there was but one bible of our industry that constituted "must" regular reading. That was a certain magazine published at 1735 De Sales Street, Washington. I still am a regular and avid fan of *Broadcasting*.

However, I thought you would like to know that in recent months, SPON-SOR has made such a favorable impression on me—and what is much more important, my regular and prospective clients—that I try and read it cover to cover the day it arrives.

Thanks for keeping SPONSOR so interesting week after week.

Henry Untermeyer San Francisco

Radio looks back

I am looking at your article, "A Publisher Looks at Radio," in the 22 August issue of SPONSOR, and would like to extend my most sincere congratulations on the meaningful manner in which Mr. Glenn forcibly pointed up the position of radio in the current communications picture.

I am so delighted to see him ask searching questions. I only hope that each operator will take these questions most seriously in relating them to his own property. If each station can do this, we will have gained another important step in the renaissance of radio.

I hope that the response to his forthright approach is such as to convince him and SPONSOR that these efforts are not in vain.

David N. Simmons vice president Trand Associates, Inc. N. Y. C.

Good work

My sincere congratulations to you for the wonderful way you handled our story on "Spot Radio Vignettes" (SPONSOR, 15 July).

The reaction has been tremend and several presentations have h made due to this story.

Let's hope that this will lead more creative selling on the par local stations and radio station resentatives and, as a result, n dollars will be allocated to the medium of radio.

Stephen A. Machcinski.

RADIO'S BIG NEW BURST OF CREATIVITY

ERE ARE LITTLE KNOWN FACTS ABOUT THE SURPRISING EVELOPMENTS IN GRASS-ROOTS RADIO WHICH ARE FAST AKING IT 'AMERICA'S MOST CREATIVE AD MEDIUM'

ith this issue the editors of SPONSOR begin a pial report that is almost certain to startle, chalce, shock, and even anger some sections of the ertising business.

lased on a coast-to-coast survey and talks with dreds of executives, sponsor believes:

There is more real "editorial vitality" in laradio today than in any other medium.

At radio's grass-roots level you will find more tiveness, more fresh new ideas than in any se of newspapers, magazines, or even tv.

Radio's 3,900 stations employ more people

for creative work than do America's 3,000 ad agencies, and their idea production is higher.

- Radio managements, especially among the top 500 stations, are far more concerned directly with "editorial content" (programing) than are the heads of most other types of media.
- A surge of creativeness, forced by fierce competitive pressures, is making local radio the one medium that is closest to its audience.
- Old generalizations about radio ("Music and News," "Top 40" etc.) no longer make sense in view of new creative developments.

CREATIVE FERMENT IN GRASS-ROOTS RADIO BOILS U

Big Band Ball, WAMP, Pittsburgh

Swimming Party, WKDA, Nashville

Coke 'Copter, WSB, Atlanta

Police Umbrellas, WSBA, Harrisburg

 Radio's rapidly expanding "creative dimensions" are vastly more significant than the familiar statistics on homes, sets, reach, penetration, coverage, and cpm's.

• Yet because of the new, reorganized structure of the industry. radio's creative story has seldom, if ever, been completely told.

In this first article SPONSOR will explain the background, reasons and general outlines of the new "ferment of ideas" in local radio.

Subsequent articles will give detailed examples of how individual stations are contributing to radio's creative revolution, and what their efforts mean in terms of the medium's new advertising power.

Radio's third creative phase

"To understand what's happening at radio's grass-roots level, you've got to realize that radio, during the past few years has been rapidly moving into Phase III of its creative development."

So says George Skinner, director of radio program services. The Katz Agency.

H's view corresponds almost exactly with those of other well-known programing experts consulted by NOR and his explanation is a graphic one.

According to Skinner, radio's Phase I, the "Netw Period" lasted nearly 25 years—from approximately 1 to 1947.

During this time radio's basic patterns were essent those of network programing—individual shows with emphasis on names and feature entertainment.

In a pre-tv world this network-type programing see almost exactly suited to audience needs and tastes.

Looking back now, many radio men such as Elmo of WSB (see box on page 33) realize that the old r program patterns had a tendency to make radio a pompous and stuffy.

Veteran Roy McMillan, also of WSB, recalls "when I got into radio in 1927, everybody was a specialist—a specialist at doing the incidental and the insig cant with great dignity and charm."

"Announcing was mostly a matter of identifying station every half hour. And we put on coats and ties that. In fact some stations, in those days required nouncers to wear tuxedos on the night shift."

Pomposity and stuffiness got their comeuppance, ever, with the advent of tv. Radio rocked like Hiros under the explosive power of the new video medium, the resulting carnage in ratings and audiences to the company of the resulting carnage in ratings.

IORE BRIGHT NEW IDEAS THAN ANY OTHER MEDIUM

reo Cars, KOTN, Pine Bluff

Fabulous Four, WOWO, Ft. Wayne

rigger Races, KFMB, San Diego

Itsy Bitsy Bikini, WINS, New York

old network programing concepts to shreds.

ccording to most experienced industry observers what d radio at this time was the sudden, and unexpected, parance of a brand new crop of young iconoclastic on operators who tossed all the old notions out the dow and embarked on a new theory of "formula proning."

hase II, radio's Formula Period" began with the regence of these realistic, unsentimental new station and their influence on the medium was enormous. hey ruthlessly reduced radio programing to its largest cal common denominators—music and news. And as ruthlessly instituted new scientific policies of limitatheir music to popular favorites—in many cases the 40 tunes.

heir success proved beyond question that they were a righter track than operators who clung to old ioned formats. And they were widely, almost univerimitated.

hey were also widely hated—both by some of their w radio men who thought their programing "undigd" and by some members of the public who suspected their rigid insistence on popular music was a dark ersive attempt to put across "rock 'n' roll."

Actually, as Wells Barnett, director of programing at John Blair points out, rock 'n' roll, even in its heyday, was never a dominant factor in the programing of even formula stations but simply one of many musical fads (calypso was another) which were aired because they were undeniably popular.

Today most radio men are willing to admit that the medium owes a great deal to its "Formula Period" and to the Formula innovators.

What they did was to force a re-examination of radio's real place in communications, and a return to fundamentals.

But, says George Skinner, in so doing, they also paved the way for radio's new Phase III—the exciting period of "Creative Ferment," in which the industry now finds itself.

The reason, according to Skinner, is that once you get back to the bedrock of fundamentals, then you must begin adding new creative and distinctive features in order to survive in a fiercely competitive world.

Radio's creative battleground

Today, in its output of fresh new creative ideas on the local level, the radio industry makes any brainstorming

s ssion ever held at BBDO look like a nursery game for backward children.

Competitive pressure is unquestionably a major factor in the relentless search for new, original ideas and in this respect, radio is more brutally competitive than any other major medium.

Since 1947 the number of radio stations has jumped from 1.300 to 3.900 and every single U. S. city is a creative radio battleground.

With more than seven times as many radio stations as there are two utlets, and with more than twice as many radio stations as there are newspapers—radio's intramural struggles are far more violent than those of other media.

And today, according to every industry leader checked by SPONSOR, radio's competitive battles are being fought principally with new ideas.

One of the most dramatic aspects of this wide-scale creative warfare is the wholehearted involvement of top radio managements in every phase of radio programing.

According to leading radio station representatives, the role of the station manager has changed drastically in recent years.

Says Steve Machcinski, executive v.p. Adam Young Inc., "The new crop of station managers works twice as hard as the old-timers ever did. They're in there pitching every day, every hour, and they're up to their ears

WHERE RADIO BUILDS

COMMUNITY SERVICE. Local stations producing astonishing number of bright effective public service features of all types.

NEWS. Greater emphasis on news. New in-depth treatments. Longer news periods, more local news and news-facilities.

3 ENTERTAINMENT. Capsule programs cover huge variety of new short features. Many types of talk, personality programs.

MUSIC. Definite trend away from raucous music. Greater emphasis on music selection, greater care in selection of numbers.

EDITORIALIZING. Increasing number of station operators are editorializing with many dramtic results and success stories.

in every detail of programing. They never rest in the drive to find something new, something different, so thing better to do."

Says Ben Holmes, v.p. Edward Petry, "You never anymore that station programing policy is being lef a d.j. or an underling. Every programing decision is lymade by top management, and management is clto programing than at any time I can remember."

Representatives like Rober Teter, v.p. Peters, Griffi Woodward, and Wells Barnett, Blair, report being stantly amazed at the amount of time spent by stamanagers listening to tapes, listening to competit checking on every detail of production and program

"Traditionally," says George Skinner of Katz, "rmanagement was sales-oriented. But today the emphas switched to programing, and program ideas becathey have come to realize that here's where they build real competitive advantages."

A SPONSOR study of other media, even including fails to reveal any comparable involvement of top agement in "editorial content" or programing.

Magazine and newspaper publishers, tv station and work heads are giving, on the average, less than 50's the time and attention which radio men devote to t creative problems.

Radio's areas of creativity

Radio's "battle of ideas" is being fought on at five major fronts:

- 1. Community service
- 2. News
- 3. Entertainment
- 4. Music
- 5. Editorializing.

And in each of these areas the amount of creativeness originality displayed by huge numbers of local stat is little short of amazing.

Few advertising men, particularly in such metropol centers as New York, have any idea of the part played by radio stations in local community life, o the enormous variety of programs, drives, features w stations are now using to bring themselves close to l audiences.

A subsequent article in this SPONSOR series will at length with these new creative community seactivities.

In general, they form a vital part of what Wells nett of Blair calls the new "humanizing" that is taplace in radio today.

News, long a radio staple, is also getting a vast am of fresh creative attention.

More coverage in depth, more local news, a gravariety and imagination in the handling of news sto the use of new techniques such as "beeper" phone in views, the employment of planes, helicopters, sea and cruisers, and the huge investments which many stat are making in news staffs form a fascinating asperadio's new "creative explosion."

In entertainment, radio is bubbling with dozens of features, many of them built around the "capsule" for of short one-to-five-minute spots, as well as an astonis variety of talk and other entertainment programing.

'IT'S A FABULOUS INVALID' SAYS ELMO ELLIS

Below are quotes from a recently published article on radio today by Elmo Ellis, widely known program director of famed radio station WSB, Atlanta, Georgia, which explain the medium's new burst of creativeness.

"RADIO—the fabulous invalid that was doomed to die at the hands of television and ended up as a comeback hero."

"The transfer of the star-studded shows to television was the best thing in the world that could have happened to radio. It melted off the fat and the lethargy, and created a streamlined, robust new type of broadcasting." "Radio got off its podium, dropped its pomposity and put on its roller skates. It became mobile and started rolling around the community, mingling with citizens, collecting and reflecting actions and opinions.

"How does radio go about serving the needs and interests of listeners today? Radio is news-hungry...radio plays music in tremendous quantities... stations offer a multitude of services ranging from fishing forecasts to French lessons, from stock market reports to fashion tips for tall girls.

"Few people realize it, but today we present more news, more music, more sports events, more weather data, more farm fare, more religious programing, more public service than at any time in our history."

t 🐫 🤼 pl. 400, or forbidal mathematical other committees on the or forbidal and the complete of the complete

Radio music, and music handling is undergoing its own riod of creative ferment, and production and audience coss stories in the music field alone comprise one of

brightest aspects of new radio programing.

Editorializing, which opened up for radio in 1949, has come a major factor in "meaningful public service"—d the energy, imagination, and effectiveness of scores broadcast editorializers testify to radio's new dynamics d vitality.

Why the story hasn't been told

This exciting story of radio's creative rebirth, hower, has suffered for lack of a spokesman.

SPONSOR believes there are at least three reasons for s:

First, to understand radio's new dynamics, it is necesty to see the industry as a whole, and most radio selling lay is by individual stations or station groups.

Second, an over-emphasis on the statistical aspects of lio—sets, homes, reach, penetration and coverage—has nded even some of radio's staunchest admirers to the citing drama now unfolding in the medium.

Third, local merchants and advertisers are aware of at's going on, and are daily finding new creative ways use radio's new creativity in their own selling. But so, few national advertisers and their agencies have dis-

vered these opportunities.

It is against this background that sponsor is presenting series on "Radio's great new burst of Creativity."

From earliest advertising days, expert media men have

known that "editorial vitality" is one of the soundest measures of any medium.

As you will see, in the articles which follow, local radio today has more bright young people turning out more bright young vital ideas than any other medium.

Three weeks ago, when CBS Radio announced that it was discontinuing the network presentation of all soap operas including such old-timers as Ma Perkins and Right to Happiness, and was dropping such veterans as Amos and Andy, some New York newspapermen reported the event as if they were sounding a death knell for radio creativity.

"Radio now reverts to its droning music, news, and over-commercialized local station formats," said one misguided columnist. Nothing could be further from the truth. The new radio, breaking the shackles of old traditions, has embarked on new experiments in creativeness which shame the old formulas.

The same week which brought the CBS announcement of the soapers' demise, also brought the announcement of an exciting new program series *Dimension* for CBS owned and operated stations.

At ABC, the network's comprehensive study of local radio's program needs produced an important new feature titled *Flair*.

And into SPONSOR'S offices during this same period poured more than 30 announcements of new original radio programing from creative-minded stations.

This is the movement which sponsor aims to report and interpret in its forthcoming series.

CONSUMER PREFERENCES, PURCHASE are tabbed by Market Research Corp., used as basis for presentations, like this to Pan-Americ Coffee Bureau. (L to r) Rafael G. Valdiveso, El Salvador representative; Don W. Connell, MRCA v.p.; Dr. James E. Wood, rsch. dir. for bureau.

NEW MEASURE FOR TV BUYERS

- Market Research Corp. has developed measurement device which gives cost-per-\$1,000 of sales potential
- Consumer panel of 5,800 lists product purchase which is correlated with day, night network viewing

Future tv program buying will be more complicated but sales results more predictable if advertisers and their agencies learn how to work with a new measurement developed by the Market Research Corp. of America.

So says Don W. Connell, v.p. for the company's large Consumer Panel Division, in explaining the new Media Evaluation Service. The measurement, in essence, relates media audire or circulation to actual product urchase. This means MRCA can dee for advertisers which medium among magazines, newspaper supplements, daytime and nighttime television and which vehicles within each media group reach the "heavy" buyers for a particular type of product. The new data also indicate the actual amount of money spent by the tv viewers or the magazine readers on any of 150 product types for the previous six-month period.

The figure which MRCA thinks is most meaningful to advertisers and their agencies in marketing and media planning is the "HEP" figure, synthesized from Households, the Exposure to media and their P chases.

What is this innovating figure. "The amount spent by the audie of a specific media vehicle for product," answers Connell. "Whis HEP figure is divided into cost of the advertisement, the cli gets the cost-per-\$1,000 of sales tential delivered by that vehicle."

In a special tabulation for SPONS Connell traced the kind of findiwhich national advertisers are a to get from MRCA. In the top fac chart, a rundown on 10 network shows—five during the day and at night—shows that the househviewing these specific programs spanywhere from \$1.47 to \$1.87 toilet soap purchases within the ruious six months.

The show attracting the bigs

rchase rate—The Untouchables—d a 27% advantage with its \$1.87 penditure over The Verdict Isours, where each viewing home ent an average of \$1.47 on the oduct within the previous sixenths.

"Advertisers can compare print and oadcast media in terms of relative ospect value as well as audience mbers," says Connell, "and this w cost-per-\$1,000 of sales potential rdstick is significant because it ries with the product class rather an remaining constant for all types products, as does cost-per-1,000 audience."

The new service starts with this emise: Both media and products e concentrated.

This means simply that a relatively of families buy the bulk of any ten product, and that roughly the me proportion of families do the lost to viewing (see chart below). It percent of the families do 75% the viewing, says Connell, and 9% them buy 50% of all shampoos.

Thus marketers need to find which nicle reaches the heavy consumers their product line. The service was indications as to which medium livers the best prospects, and stratis further by comparing vehicles thin the same medium.

In the instance of toilet soap, for

The British and the Control of the C

HOW TELEVISION SHOWS DELIVER TOP TOILET SOAP PROSPECTS

Diaries in 5,800 MRCA panel homes record actual product purchase, as noted for toilet soaps in the chart below. The dollar figure is then projected to a program's total audience and the advertiser comes up with a new yardstick—the cost-per-\$1,000 of sales potential. Figures are for five daytime and five nighttime shows

Program	Average purchases of toilet soap per house- hold viewing	% of households that are heavy buyers of toilet soap
Untouchables (E*)	\$1.87	48%
Our Miss Brooks (D**)	1.82	47
Ozzie and Harriet (E)	1.76	46
Who Do You Trust? (D)	1.71	46
Love of Life (D)	1.69	44
Sugarfoot (D)	1.63	43
Garry Moore Show (E)	1.61	41
House Party (D)	1.51	40
What's My Line? (E)	1.48	39
Verdict Is Yours (D)	1.47	38

· . BECODE TO A THE CONTROL OF THE C

example, if program costs were equal, the best buy for this kind of product would be *The Untouchables*, which reaches families spending the most

1 2 HARLING 1944 A.

on soaps and which also reaches the highest percentage of heavy buyers.

Almost half—48%—of the total tv audience was "heavy," heavy describing the top third of purchases.

Connell explains that the rule of thumb for marketers is that one-third of the families buy two-thirds of the product in dollar volume. This ratio, he says, "holds true for virtually every high-turnover product class, although the types of families which make up the heavy-buying third may differ from product to product."

MRCA's findings are developed from diaries maintained by 5,800 panel families, each of which reports in detail (1) its purchase of some 150 product types as well as (2) its specific exposure to 58 network evening programs, 30 daytime shows, 36 magazines and 20 newspaper supplements.

Further findings which can evolve from these tabulations requires extra thinking and work from client and agency people, says Don Connell, but the result gives them a more accurate, pinpointed analysis with less (Please turn to page 48)

NEW MEASURE BASED ON MARKET AND MEDIA CONCENTRATION

The new cost-per-\$1,000 potential is figured by the Market Research Corp. of America on the premise that a few families buy most of the products of any given type and read or view most of the media. Here are some media-market comparisons

MEDIA

TELEVISION—40% of the families do 75% of the nighttime viewing MAGAZINES—37% of the families do 75% of the magazine reading

MARKETS

DENTIFRICES-14% of the families buy 47% of the product

ALL-PURPOSE FLOUR-16% of the families buy 64% of the product

SHAMPOO-9% of the families buy 50% of the product

NO LET-UP IN SPECIALS BOOM

- Networks have already sold almost as many entertainment specials as were telecast all of last season
- Thematic specials by Bell, Dow, Hallmark, Purex, GE, and others will outnumber 'star' specials 2 to 1

Last season the drumbeaters proclaimed that there'd be over 160 entertainment specials on the three networks. However, when the season end d in June, no more than 95 entertainment specials, costing an estimated 831.5 million for time and talent, had actually gone on the air.

Sometime before the start of the present season it was whispered that there'd be very few specials in 1960-

of formats such as Breck Family Classics, GE specials, Hallmark Hall of Fame, Bell Telephone Hour, Dow Great Hour of Mysteries, and Purex Robert Alan Aurthur dramas.

Of the GE specials to which advertisers are already definitely committed, 46 will be of this latter type, only 25 will be "star" specials, and 21 will belong to neither category.

There are several good reasons why

specials using themes rather the stars. The right type of progra atmosphere to go along with the prouct can be selected more easily. I ventions like Dow's mysteries, Bel musicals, and Breck's classics a necessarily more identified with the inventors than with their performe

Sales promotion and dealer prom tion get a tremendous boost out any special, but they may get eve more from a thematic special the from a star special. The top attration on the billboard is the produnot the entertainer.

Automobiles, cosmetics, and je elry are the exceptions to these ge eralizations. There the glamor aprestige of the star apparently cabe beaten. Thus this season we'll the Bing Crosby for Oldsmobile and V tor Borge and John Wayne for P tiac on ABC TV, Danny Kaye if General Motors, and Leonard Bestein for Ford on CBS TV, Fred taire for Chrysler, and Bob Hope Buick on NBC TV.

The only other advertisers comitted to star specials at this point Revlon with Debbie Reynolds on A TV. and Harry Belafonte and Ing Bergman on CBS, and Speidel w Jackie Gleason on CBS TV and De Martin on NBC TV, Timex with R Skelton and Carling with Phil Silve both on CBS TV, and Donald O'C nor for the Brewer's Foundation NBC TV.

Four entertainment specials ready set will be events: Quaker O Tournament of Roses Parade on A TV. Philco, Toni and Oldsmobil Miss America Pageant on CBS Shell Oil's two Young People's C certs on CBS TV, and Timex's Star Circus, Top Value's Holiday Ice, Minute-Maid's Tournament Roses Parade, and Lionel and Id Thanksgiving Parade, all on NBC I

Several specials will actually motion pictures. Benrus will reits classic, "The Wizard of Oz," CBS TV and Pontiac's John Wayshow on ABC TV will actually trailer for the star's "The Alam Hallmark Hall of Fame on NBC

ENTERTAINMENT SPECIALS' STRONG SALES START

NETWORK	SOLD	PLANNED	вотн

CBS TV	36	24	60
NBC TV	50	24	74
TOTAL	92	48	140

61. But as of the last week of August advertisers had actually signed on the dotted line for 92 specials which for time and talent could tally \$32 million. And the season was yet to start. Most likely there will be in the vicinity of 140 entertainment specials before June. 1961 comes around.

The most interesting development
t u coming specials is the large
f thematic entertainments
t uit around a single star.
Whi star ke Bing Crosby, Victor
Borge, Debbie Revnolds, Jackie Gleason, Red Skelton, Ingrid Bergman,
Lanny Kaye, Harry BelHope, Fred Astaire, Dean
hald O'Connor are alasin the new seasising growth

advertisers are apparently preferring invented formats in entertainment specials over a pursuit of the biggest box-office names. One is that entertainment names don't always work out on tv. Frank Sinatra's shows for Chesterfield on ABC TV some seasons ago are the best example of this. Another reason is that sometimes stars work too much. Bob Hope's identification with a string of rival automotive brands over the years on NBC TV is, in some circles, inexplicable. Still another factor is that stars whose main interest is motion pictures or records have often gone into tv halfheartedly, through fear of over-expo-

There are positive reasons too why advertisers are building a wave of

th Maurice Evans and Judith Anrson, filmed in Scotland. NBC TV o scheduled "Rivak, The Barbarı," starring Jack Palance, a motion ture being released to theaters in rope only. But for the most part, a motion picture boom in entertainment specials has still failed to materialize.

A special Nielsen study of last season's specials shows that 90-minute specials didn't command larger average audiences than their shorter 60minute brothers. To the contrary, of 95 entertainment specials reaching a seasonal average audience (Sept., 1959 to June, 1960) of 19.5, the 61 hour-long entries scored 20.0 compared to 17.6 for the 32 hour-and-a-(Please turn to page 48)

CLIFFORD DAVIS, senior v.p. Lennen & Newell, never worked for an ad agency until assuming post of merchandising director in 1957. Most members of his staff were also trained outside of ad agencies

MAKING last-minute changes before presentation are assoc. merchandising directors William Jefferey (I), Colgate-Palmolive account; and Ben Grogan, American Gas Assn., Corn Products accounts

CLIFFORD DAVIS: 'Don't Use Tv Unless You Merchandise It'

- Veteran Lennen & Newell v.p. insists it' agency's job to make local registers rin
- Here's how his "non-Madison Avenue staff organizes heavy merchandising support

Clifford W. Davis had to delay the start of his intervie with SPONSOR because of an important conference in th office of Lennen & Newell's president Adolph Toigo. I meeting was called to approve some new commercial contained at most agencies Cliff Davis, as head of the merchaldising department, would not have been invited in.

But at Lennen & Newell, the merchandising director a senior vice president and a member of the plans boad His department is on equal footing with the media as creative branches and employs its own copywriters, do its own promotion, has its own artists.

It also has its own opinions about the manners a mission of the advertising man.

"There's nobody in our department who walked in an agency years ago and asked to learn the ad business said Cliff Davis. "My staff is hand-picked. They're bacco men and soap men and tire men. Some were sa managers of national companies. There's no 'Madis-Avenue' lingo, no philosophical discussions, no superous research material. Just facts and figures aimed keeping the cash registers ringing for our clients.

"It's our job to be the right arm to the sales manaof a national company. We take some of his problems of his hands—the ones he never has time to get around to so he can go on to other pressing business. We don't has a client who's not in contact with the merchandising of partment every day of the week."

Forty years with such as A&P, General Foods and I logg gave Cliff Davis a pretty good insight into what client needed from its agency in the way of merchanding. Before coming to Lennen & Newell in 1957, he hobserved that in most agencies the merchandising dependent would sit and wait until the creative department.

old them the approach to be employed. The client dealt nly with an account man, and a campaign was condered a success if the national image of a product was

pgraded, had gained some respect in its field.

"But this was only half the battle, if that much," he eclared. "A national approach doesn't help the guy with is finger on the register. He needs immediate results, ad in Boston he can't get them the same way as in Biloxi · Bozeman or Bakersfield."

At Lennen & Newell today, he said, with merchandising a level with the other divisions, each consults the other om the very beginning of a campaign "and one won't ove without the other's ideas."

Merchandising has a special function in advertising rese days closely related to what Hy Schneider, associate erchandising director on the Armstrong Rubber and luett, Peabody accounts, called "the networks' attitude nat they are in the driver's seat."

This "attitude" is evident to Lennen & Newell even ore this year, he stated, because its clients will be ponsoring more shows than ever before—five on NBC, ght on ABC, and eight shows plus one special and the lympics on CBS. It reminded Schneider of the eligible bung man who married an ugly rich girl. "Who does de dishes—or, in our case, who does the promotion?

"The client puts up a bundle of money and feels that he

A THE REPORT OF THE PROPERTY FOR THE PROPERTY OF THE PROPERTY

shouldn't have to spend even more to promote a show. The networks feel they've sold the airtime and their job is done. We believe that if we, as an agency, make an investment, we must promote it.

"And it's hardly a nuisance," he said, "because merchandising is the final link between the client and the consumer. Consumers are, after all, constantly beset by ad messages from different media, and we don't do a client a service by dissipating our efforts and confusing the public even more. Merchandising a sponsorship gives unity to everything we do, and gives the tv show even more publicity."

What does the department do? William J. Jeffery, associate merchandising director on the Colgate-Palmolive Co. account, supplied some specifics. It's the merchandising department's job, he said, to create interest at all levels in order to sell more of a product. Various aspects of merchandising must tackle (1) the customer, building interest and audience for a sponsored show; (2) the trade, because all the consumer promotion in the world won't help if the retailer is not stocking the product, or the wholesalers and jobbers are not supplying enough, and (3) the salesmen, who are spurred by the activity backing their efforts.

How does the department accomplish all this? three ways. according to Jeffery-market testing, special

"The Olympics are brought to you by Kent cigarettes"

John D. Stacy

ENT'S SPONSORSHIP of the Olympic Games over BS TV, which ends this week, called for an "intense ree-week merchandising campaign" to "build audience d interest, increase sales and establish goodwill for

John D. Stacy, associate merchandising director on the rillard account outlined the major factors:

A booklet, "1960 Olympic Guide," printed "in the milons" was distributed free at points-of-sale all over e country-cigar stores, supermarkets, drugstores, ly place "within reason" where cigarettes are sold. It intains, besides the schedule of telecasts sponsored Kent, articles and pictures on almost every event. 'his isn't like a baseball telecast," said Stacy. "Most the viewers have very little knowledge of the rules d the records in the Olympic sports. The book was

designed to build interest, goodwill for Kent, and to create a nation full of enthusiastic fans and viewers."

Counter displays accompanied the booklet.

Window streamers for stores announced, "See the Olympic Games presented by Kent cigarettes—CBS TV -Aug. 26-Sept. 12."

Media merchandising kits were included in CBS's promotion packages. They contained glossies for ads, jumbo ad cards, Olympic feature stories on mats for insertion into local station newspaper ads.

Trade ads were placed in tobacco, drug, and food books on the theory that "when a buyer knows what you're doing, he'll support you."

A brochure announcing the telecast was sent to the trade-to jobbers, retailers (such as chains big enough to buy directly from Lorillard), wholesale distributors, vendor operators, and other key trade sources. A sample of the booklet was included.

"The idea of merchandising to the trade is a very important factor in our planning," Stacy revealed. "So many firms pay thousands for a program, and aside from the program ads, do nothing. They can do a big advertising job, but if the trade doesn't carry enough of their

Some new guideposts for sports sponsors

- Arkansas State radio director studies broadcast trends in athletic programs of 120 U.S. colleges
- Major finding: Sale of broadcast rights is a growing problem for advertisers because of cost and complexity

Fall and winter sports lineups are neuron readied by national and regranal advertisers and their agencies, and the scramble is on for the top-draw names in football and basketball.

Sports sponsors are able to spot new sports trends in network lineaps and esting with perusal of a college sports broadcast survey completed recently by Bob Howe, director of radic at Arkansas State College.

The patterns are traced from a survey among 133 colleges, which Howe conducted as a thesis subject on radio trends in the broadcast of college athletic events. More than 90% of these schools—120 of the 133 responding—said they have some kind of play-by-play radio coverage. Of these 12%, 43 or 2% said some of their sports are telecast.

F wing are some general findings of interest to radio advertisers:

RADIO DIRECTOR Boo Howe of Arkansas State College studied mese proadcast sports mends as part of thesis he's completing

- Football networks are usually larger than those formed for basket ball games, and football continues to be a bigger audience-getter
- Networks are larger when more mercial stations are handling arrange ments than when the colleges there selves originate the play-by-play and lower facing chart.
- Conference games in footba
- Football and basketball right often are sold to advertising agencies, and the two primary ways selling are 1 on an exclusive basion 2 by open bids. In one instant of bidding, rights brought one school \$30,000 for its radio football schedule.
- Of 23 conference schools broad casting games, six placed certain radio limitations. Among them broadcasts could only be a publiservice: 2 stations in each individual market had to bid for broadcast rights: 3 stations could only cast the broadcasts they bought.
- Another limitation for client and agencies: Among all the school which allowed commercial origination.
 39 rejected certain types of sponsors although 15 did not. Most of the schools which screened client did not allow liquor. Another this allowed no beer: a fourth turn down patent medicines, and a fiscattered schools rejected politicigarettes, and religious advertising.

Costs seem to vary greatly, be by type of sport and by location, say Howe. In some instances, game rigare issued without charge. This terto apply to less popular sports. Evthough football and basketball get t oiggest radio audiences, many staions carry play-by-play on eight other athletic activities—hockey, boxing, paseball, swimming, wrestling, golf, soccer and skiing.

The largest football networks are ound in the South, and it was a southeastern conference school which reported \$80,000 as its revenue (the eak reported in the survey) for one eason of football which it originated. Howe thinks basketball networks are maller because "most of the games are played at night when many stations are off the air."

Radio broadcasts of sports are on he upswing in all parts of the counry except the East, says Howe. He attributes this to a general de-emphais of sports in eastern colleges and universities. Enthusiasm seems to run aighest in the Big 10 and Pacific loast school areas, where costs for proadcast rights were higher.

Howe also analyzes different approaches in the sale of game rights to tations and to networks. When the chools originate broadcasts, most of hem charge stations on a per-game pasis, but some set a season fee and ome provide the service fee.

The school charging by the season llowed stations in each city to bid or rights in its area, with costs ranging from \$350 in a single-station maret to \$4.000 in certain multi-station reas. Says Howe: "This proved to be the most lucrative of any methods f charging."

Network costs are another matter, ays Howe, noting that "One problem nat is looming bigger than ever for chools, radio stations and advertisers that of charges for broadcast rights the local level." He adds that network charges were "somewhat higher" than for single-game broadcasts.

Costs for broadcast rights, he feels, for football especially, can get pretty spensive regardless of the method of charging) employed. There were our schools which charged per year or all sports (see adjacent chart) ith what Howe terms "reasonable" narges: \$10,000 and \$3,000 for Parific Coast schools, \$9,500 for a skyne conference school and \$9,000 for a independent. Figures tabulated or the 120 schools reporting they resived play-by-play radio coverage over 97 conference colleges and 23 adependents.

Bon Ami's Jet up 35% with net to

- ✓ Big boost comes from 'Paar' investment, as company bounces back with \$1 million, all-television campaign
- **▶** Fall merchandising strategy features Jose Melis lp premium; ABC TV lineup bought for furniture polish

A healthy dose of network tv, and the Bon Ami Co. has shaken off the ill effects of its Guterma period.

Last fall, the 76-year-old detergent producer, still reeling from its former head's fiscal trickery, bought into NBC TV's Jack Paar Show. The entire ad budget for its Jet Spray aerosol cleaner and powdered cleanser has gone into this show ever since. (The company now spends at the rate of about \$1 million a year on consumer advertising, including the outlay for new Dustin' Wax furniture polish which was introduced with print, but shifts to daytime ABC TV this fall.)

Jet Spray Bon Ami sales for the first seven months of 1960 are reported 35% above the same period

last year. Sales of the product this summer are running 20-25% ahead of last season. Regarding the powdered cleanser, Bon Ami expresses satisfaction at "holding our own" in a field which shows an over-all falloff of 4.5%. The Bon Ami Co.'s gross sales are back up to the pre-Guterma \$6 million level, having dropped to around \$4,500,000 during his tenure.

Bon Ami participates in the *Paar* show two or three times a week, with a July-August hiatus. "This represents a strategy shift to continuity, at the expense of concentration," points out Bon Ami merchandising v.p. Jack Shaw. "We've found that most families purchase this type of product two packages at a time, at three-

month intervals. That rendered of earlier approach of short, heavy sposinghts inefficient, since only a fration of our audience would be real to buy, during eight to 12 weeks of the air, regardless of frequency.

"In addition, we are pleased wit the almost entirely adult *Paar* audence, especially the high proportion of housewives. We feel this is most appropriate than sponsorship by J Bon Ami's competition, Windex, *Maverick*, an early Sunday eveniwestern watched largely by your sters and men—though they're ce tainly doing well with the show."

Jack Paar delivers the lead-in f Bon Ami commercials and then yield the floor to Hugh Downs who do the rest of the talking, either voice over or on camera. Film clips a used to demonstrate the products action, but for a number of reason the advertiser stays away from a film commercials.

"We get utmost flexibility combiing film clips with Downs' live livery," explains Arthur Fisch

HUDDLED to develop Bon Ami tv commercials (I to r): Jabez Williams, art director, Cole, Fischer & Rogow; Bert Tanner, illustrator and anim tor; Arthur Fischer, executive committee chairman, CF&R; Lawrence Esmond, president, CF&R; and John Shaw, marketing v.p., Bon Ami. On the 'Jack Paar Show' commercials combine live delivery with film clips demonstrating products in action. Live approach allows for last minute change.

chairman of Bon Ami's agency, Cole, Fischer & Rogow. "Unlike our giant competitors we can't afford to make all commercials to cover every merchandising contingency, but with the live copy approach we can make changes on the day of broadcast if necessary. Furthermore we feel the client benefits from extensive identification with Paar and Downs who have such good rapport with the nudience."

Bon Ami has found its net tv buy great help in attracting new users or Jet. At the start, Paar sent telegrams to chain buyers all over the country telling them that Bon Ami was to be a sponsor. And the Bon Ami salesmen made sure to include Paar in their pitch. This got the tores to stock up and, as Shaw puts t, "Once the product gets piled up in the stores, our tv makes sure it ells."

As an additional come-on for new isers, a five-cent-off offer was initited in the spring, and played up reavily in the tv copy. "We beat our pring quota for Jet by 20% and he stores are ordering in large quantities now, in anticipation of another buying wave from our enlarged conumer group in the fall," says Fischer.

Beginning this fall Bon Ami enlists nother member of the Paar team in ts advertising cause. Jose Melis, the how's band leader and piano player, as cut a 12-inch long-plaving phonoraph record to be distributed solely s a Bon Ami premium. It will be ffered to the tv audience for one ollar and a label, with Melis exected to do a good bit of the pitch-The record is called "Bon migo" (Fischer's idea), to bring in ponsor identification without overommercializing. "We anticipate an xtra enthusiastic selling job from ose," smilingly adds Fischer, "since e gets royalties on the record."

Plans are to merchandise the Melis isk to the hilt. An intensive promoton drive at the trade press level is eing conducted by Carl Erbe Assocthich handles public relations for ton Ami. Erbe v.p. Ken Burgher resorts that over 500 trade press jouralists have returned postcard resuests for a copy of the record. And the sales end, buyers putting in ubstantial orders for the product

Source: TvB via LNA-BAR, top 15 spenders for 1960 period

BEER, GAS, AND APPAREL BOOST NET TV SPENDING

Substantial increases in network tv gross time billings were racked up during 1960's first half by three industries, according to TvB's latest LNA-BAR report. They were the oil, beer, and apparel groups. The nation's gasoline producers made a particularly impressive showing in boosting their expenditures by nearly \$5.5 million — almost quadrupling the gross time figure for 1959's first half.

According to the TvB report, the gasoline industry last year gave \$2, 187,148 to net tv for the first six months of the year. This year, the billing tab came to \$7,685,827. Apparel gross billing jumped from \$2,824,957 in 1959 to \$4,223,212 in 1960; beer and wine from \$2,760.541 to \$4,030,002. Household furnishings favored net tv by hiking its expenditure from \$1,791,151 to \$3,329,265.

Procter & Gamble again led as top advertiser in the second quarter of 1960 with a gross time billing of \$12,- 506,267. American Home Products came in second with \$8,365,411. Lever Bros.' tab was \$6,840,605; Colgate-Palmolive, \$5,856,924; General Foods, \$5,183,500; and General Motors, \$5,131,783. Top tobacco advertiser was R. J. Reynolds with a time charge of \$4,190,939 followed by Philip Morris at \$3,201,998.

The Brown & Williamson Tobacco Co. paid \$2,842,789; American Tobacco, \$2,733,461; and Liggett & Myers, \$2,644,903.

Anacin Tablets topped the list of network brand advertisers for the second quarter, this year, with a gross time expenditure of \$2,357,830. Dristan came in second with a close figure of \$2,183,068. Texaco was tagged with a \$1,988,181 bill; Phillies Cigars, \$1,874,692; Winston Cigarettes, \$1,721,234; Bayer Aspirin Tablets. \$1,652,813; Pall Mall Cigarettes, \$1,559,402.

BUILDING SUPPLIES

SPONSOR: Pine Hall Brick & Pipe Co. AGENCY: Long-Haymes Agency

Capsule case history: The Long-Haymes Agency, Winston-Salem, had a difficult problem-to create and maintain a brand image for Pine Hall Bricks that would appeal to the imagination of women. The agency decided that WSJS-TV provided the home-building type audience it wanted, and conceived a tv campaign that not only glamorized the Pine Hall Brick & Pipe Co.'s bricks, but made them easily identifiable for women. The bricks were sold as Colonial Rose and other exotic names for brick styles, and through the use of prime time I.D.'s on the station, a tremendous consumer demand was created. Curt Long, of the Long-Haymes Agency, said: "The WSJS-TV schedules gave our campaign the impact it needed. Its effective reach was a major factor in making the consumer market aware of the Pine Hall name in bricks, over a five-year period. Today, people in this area buy Pine Hall bricks the same way they buy refrigerators, cars, etc.—by the product's brand name. WSJS, Winston-Salem Announcements

HEARING AIDS

SPONSOR: Acousticon Hearing Aids AGENCY: Direct Capsule case history: Walter Zuchara, new manager for Acoustian Hearing Aids, Springfield, Mass., wanted to use tv but had a limited budget. WWLP suggested the use of well-known weather man John Quill, and the sponsorship of 7:25 and 8:25 a.m. weathercasts on Wednesday and Friday within the NBC Today segment. Doubt had always been expressed as to early morning tv effectiveness, but WWLP felt that good results could be obtained if the advertiser capitalized on a strong local personality and placed him in a Today Show adjacency, within which the weather shows are scheduled. The manager decided to give it a try, even though it meant allocating 50% of his ad budget. Quill did the commercials himself, low-pressure institutional advertising with an offer of excellent books on hearing and a free tv/radio attachment for the afflicted. Results: One I Acoustican's most successful campaigns, it has produ more leads, while still feasible for a limited budget. WWLP, Springfield Weathercasts

BEVERAGE

SPONSOR Nestle Co.

Capsule case history: McCann-Erickson, New Yor placed a schedule for Nestea on WAVY-TV, 9 May through the Ruy was for five one-minute spots per week

30 July. Buy was for five one-minute spots per week day programs, backed by the station's intensive merch dising. In cooperation with Morrison B. Prewitt, territo manager for the Nestle Co., the station placed beach brellas in over 100 stores to set off attractive arran ments of Nestea. It further supported the campaign w one of the largest mailings the market has ever seen. the end of the campaign, Prewitt reported to Mike Schall of WAVY-TV that the station produced some of the la results Nestea advertising and merchandising has ever h in a market. WAVY-TV, he said, was responsible for the sands of consumers buying the product during this peri-The campaign was also a factor in getting enthusiastic mi chant support, and the increase in sales in the area paved the way for many new listings for economy-size Nest WAVY-TV, Norfolk Announcem

APPLIANCES

SPONSOR: Moore's Wholesale AGENCY: Dir

Capsule case history: On a recent Wednesday night Moore's Wholesale of Harrisonburg, Va., purchased WS TV's Don Reno & Red Smiley Show in an effort to p mote a special sale on Hot Point appliances. Additional the company purchased half-sponsorship of Valley B Dance on Saturday night of the same week, and 20 N 10-second announcements. No other advertising was u By special arrangement with WSVA-TV Don Reno Red Smiley performed at the sale. Total cost to Moor \$730. Due to the tremendous number of people who turn out for the sale many had to wait outside. Eventually tomers were allowed in the store in groups—the first gro consisting of 1,800. Before the day was over Moore's tire stock was sold out. "I have never seen anything equal it anywhere," said Hot Point's regional sales r ager. Moore's renewed its WSVA-TV contract as a res of the campaign, and plans to concentrate on televisi WSVA-TV, Harrisonburg Programs, Announcement

MRCA

(Continued from page 35)

risk of mis-choice. Much of the outcome, however, "depends on the advertising philosophy and marketing goals of the sponsor. The new MRCA service does not relieve media people of making decisions.

"On the contrary, it may make the decision more difficult because it provides the executive with many more alternatives than before. But with this new information available, he can make more meaningful and justifiable selections."

He documents his assertion about buying complexity with this further analysis of the toilet soap-television show figures from the chart.

"In toilet soap, the manufacturer who can attract and hold the greatest percentage of heavy buyers has the best chance of achieving the most volume. This new media service enables the soap marketer to analyze audiences of individual ty programs to determine the percentage of heavy buyers."

Here are some of the ways in which an advertiser could use these findings:

"He would multiply the household purchase rate by the number of households watching an average telecast to determine the program's total prospect potential, the HEP figure. By dividing this figure into a meaningful program cost unit, the advertiser gets a cost-per-\$1,000 of sales potential measurement for each program he's interested in. Once he's arrived at this figure, the client is closer to the decision stage."

But, notes Connell, the figure will vary with the product class. He knows, for example, that the average family watching What's My Line? spends more on canned fruit than The Untouchables household, although the latter reaches better toilet soap customers.

Another way to use the panel findings: Where two programs are approximately equal in audience size, such as *House Party* and *Love of Life*, and the time and talent costs are about the same, the resulting figure "can help the client make a clear-cut choice." In this instance, he notes *Love of Life* delivers 12% more sales potential.

He continues: "Where the cost of a program does not reflect the difference in audience size, the advertiser might still choose the show with the lower household purchase rate. What My Line? might be a better huy that The Untouchables if its cpm dollar of sales potential is lower. Or the advertiser might investigate other high-rated programs that cost the same."

These various applications, point out Connell, document his suspicion that buying may well be more copplex as a result of applying the neservice to a marketing problem.

But modern marketers need to kee risks at a minimum and this is on way to do it. This was the assertion of Curtis C. Rogers, president MRCA's Consumer Panel Division, he introduced the service at a recommeeting of the American Marketin Assn.

He concluded by pointing to varitions in potentials for tv. "An analsis of purchase of a laundry rinsel the audiences of four network tv datime shows revealed striking differences. The amount spent per houwife watching each show varied from 32% below the national average from show to 21%, 50%, and 134° above the average."

SPECIALS BOOM

(Continued from page 37)

half specials. (The two 120-minus specials earned an average audient of 32.8).

This season the networks are n scheduling specials until after the sell them. On CBS TV, for exampthere were only two unsold special assigned a definite time slot: the N tional Automobile Show on 16 October, and a musical revue on prodential campaigns starring Gar Moore, on 24 October. CBS TV all expected to have a second Jac Gleason special and a series of Plathouse 90 shows as specials, but had yet scheduled them. Also on tap sold were additional Max Liebmand Leland Hayward specials.

NBC TV was ready for in-seasbuying with a group of planned sp cials: two dramatic hours, *The Ren* gade and O'Conner's Ocean, an Ele nor Roosevelt special, and had 14 Fe day nights open for specials.

ABC TV, which only had six enttainment specials sold before Septeber, compared to CBS TV's 36 a NBC TV's 50, wasn't scheduling a ditional specials until they were sol The three networks made a careul effort to get the most out of their pecials for this season by keeping hem out of each other's way. CBS IV goes against an ABC TV special only on one night. 27 October, when Du Pont Show of the Month was put against Debbie Reynolds, both startng at 9:30 p.m.

NBC TV, with more entertainment pecials than all three networks, shows only two conflicts: on 30 September, when Dow and Du Pont shows would compete, and 2 January, when ABC TV and NBC TV would simultaneously cover the parade of the Tournament of Roses.

NBC TV, with the most unsold specials already scheduled, also had two cases of the opposite condition: two old slots for specials which did not have programing yet. These were to bara Lee on 4 November, and to Lanin on 6 December.

Last minute changes at NBC TV aw the expanding of some specials and the curtailing of others. Bell celephone's specials went up to 20, while Dow cut back to five, and the Dean Martin specials were reduced to wo. Jerry Lewis and NBC TV, initially contracted to two specials, have ow parted company completely.

The biggest question marks in enertainment specials at the moment re the 14 Friday nights NBC TV was olding open for hour specials and, lso, the composition of CBS TV's chedule, which has not been made ublic after 11 December. Both IBC TV and CBS TV had 24 addional specials, unsold at the season's art but which they intended to schedle and sell in mid-season.

These programs represent a flexiility in the program and sales deartments of both networks, enabling he nets and their advertisers to "play by ear" once the new season's ratless results come in. These 48 addional shows also were a place for articipations spending.

Since NBC TV has apparently laid s cards on the table with a complete hedule through June, 1961, it is nowing less reluctance to make midason deals than the other networks. BC TV isn't talking about added nows until they're sold and CBS TV, hich would like to bring its total of pecials up from the 36 now sold to a stal of 60, is prudently limiting its xed schedule to the first thirteen eeks of the new season.

CLIFF DAVIS

(Continued from page 40)

the \$17 million total in 1952.

"A potential client will hear from all departments — creative, research. media, merchandising," Davis revealed, "and each is equipped to take over the major portion of a presentation depending on what the client is most interested in. If he's interested in merchandising he's liable to hear me say. 'Now that we've gotten all the trivia out of the way, let's get to what rings the cash register.' In the Cities Service discussions I told them what my department would do to get the customers in, get them back. and make them regular users."

A memorable experience early in his business career, in 1929, had a hand in shaping Cliff Davis' philosophy of salesmanship. The then 30-year-old A&P Chicago sales manager was aware, as was everyone else, that the price of eggs was at rock bottom—11¢ a dozen. And what's more, they weren't selling very well.

Young Davis came up with a plan for a "gigantic promotion." and although his superiors were only partially convinced that it would be beneficial to A&P ("the management thought it undignified"), they gave him the go-ahead.

"On Monday morning ads appeared in all the papers. They showed a rooster crowing the news that at the A&P eggs were selling for 1¢ each. The same rooster decorated all windows of our stores, and eggs, in their crates, served as window displays."

The results of the sale: Fifty-five carloads of eggs at 12ϕ a dozen sold by Wednesday morning; one trip to Chicago by a representative of the New York office ("He came to check our books; they didn't believe we'd sold that many eggs"), and at least one life-long convert to merchandising.

"Sometimes all a campaign needs is one new idea," Davis declared. "Clients are hungry for ideas, and good ones are the backbone of any merchandising job."

Lennen & Newell has a staff of 13 in its merchandising department, with 10 people in New York and three on the Coast. Besides Jeffery and Schneider, the associate merchandising directors include John D. Stacy. on the P. Lorillard and Consolidated Cigar accounts. Ben Grogan, on the Ameri-

RADIO

How can advertisers best utilize transcription

Ray Morris, evaporated milk advertising manager, Pet Milk Co., St. Louis, Mo.

Changes in the broadcast industry during the past decade have virtually driven transcribed radio shows off the airwaves. We've noticed, for example, more and more stations list "rates

E.t. shows offer retail tie-ins, star promotion, time flexibility

on request" for programs on their rate cards. Music, news and sports is the format, with spot package buys on a saturation basis the common commercial pattern. This being radio's Christmas pie, we believe we've pulled out a plum in the form of transcribed radio programs.

We know from our own experience during the past several years of programing Pet Milk's Grand Ole Opry on the Keystone Broadcasting System and Pet Milk's Sunday Morning on selected Negro stations that transcribed radio shows can still offer advertisers real value when fully utilized.

We believe radio advertising provides maximum effectiveness when the advertiser brings the audience to its commercials, not when the commercials are simply taken to the audience. This is especially true when the audience is virtually hand-picked as prime customers.

We use transcribed radio in a vertical manner, selecting programing that appeals to our primary target and then placing the programs in selected high potential marketing areas. Spot radio is somewhat limited in selectivity, whereas a transcribed radio show can be almost totally selective by nature of appeal.

For example, our Grand Ole Opry program attracts not the casual listener but rather the country music fan. The same is true of our Sunday Morning Negro gospel singing show.

We believe that when you bring an audience to your advertising you're also bringing attentiveness and believability, which stem from natural loyalty to the program. This kind of commercial impact is made doubly effective when the advertising message is integrated with the personal endorsement of the program stars.

The transcribed radio show also offers the big and important plus of being merchandisable. Promotional ideas can tie directly to programing and star personalities. The program becomes the base from which all copy and in-store material is developed.

There is also great flexibility in using transcribed radio shows, such as tailoring our markets on KBS to fit our sales needs.

We have found that transcribed radio shows can be used to provide pinpointed coverage of prime customers with real commercial attentiveness and believability, and at the same time be successfully merchandised and promoted at the retail level.

Dave Nathan, director of radio & television, Curtis Advertising Co. Inc., N.Y.

With the use of syndicated transcription shows an opportunity presents itself for advertisers to use bigname and big-time radio on stations in markets where this is not readily

With strong personality, e.t. show stands on music and news stations

available. This is the essential value of radio syndication to a national advertiser.

In my opinion, there will be an important resurgence of radio syndication, and for a good number of reasons. The first is the decrease of good network stations. While radio networks offer advertisers a large num-

ber of stations, the listenership of these affiliates is sometimes low, an network clearance in major market is becoming more difficult.

Secondly, in this day of "Top 40" radio and music and news for mats it has become more difficult for any national advertiser to stand our on any station where he is represented by one of many e.t.'s or local an nouncements. Transcriptions provide not only a contrasting break in the musical format, but also nationally known personalities and entertainer associated with network radio.

We at Curtis Advertising have discovered that where we could emploan important name and a distinctive "voice" on local stations our result were far and away stronger and morproductive. Syndication enables radio advertiser to use a strong approach in local markets where he would otherwise be just one of number of voices on a station. And it is even more important for a limited budget advertiser to assert him self in this way.

We can readily substantiate ou experience with syndicated tran scribed programs as a good many o our commercials fall into the classi fication of "lead producing" types.

It is for these reasons that syndicated radio programs will assumeven greater importance in the year to come.

Carlton Fredericks, syndicated radi personality, WOR Radio Syndication, N.)

In order to answer the above quetion I'd like to epitomize the advantages of syndicated programing: Syndication provides the flexibility of spot radio with the prestige of nationally known names.

To begin with, syndication enable an advertiser to select his market and run specialized copy geared t local and regional considerations such as climate, buying habits, or t meet specialized sales or marketinproblems.

But possibly even more important

shows?

ndication enables an advertiser to e-condition listeners to his sales mesges. A transcribed show provides advertiser with the type of proaming that places potential customs into the frame of mind that will ake them more amenable to the immercial.

Modern technical advances have so helped to make syndication a

By running specialized copy geared to local and regional considerations

ore valuable advertiser tool. Whereformerly syndicated programing
s canned on records—and somenes scratchy ones at that—today's
dio syndicators utilize high fideltape records. And the use of tape
d accurate cueing techniques enles advertisers to reap another outnding advantage—the use of madeorder cut-in commercials made by
syndicated personality.

For example, on my syndicated ogram, Living Should be Fun, parappating advertisers have available them the opportunity of having me iver their commercial on any one more stations carrying the prom. This pre-recording service is wavailable to local as well as nanal advertisers.

A similar technique, whereby the dicated personality pre-records sonalized on-air promos, ultimately advertisers by building audies. In such promos, each station's letters or any other such tailored primation can be inserted.

urthermore, syndication enables to render a more personalized vice to listeners in each area. sough all of the stations carry estially the same program each day, in via local cut-ins, I am enabled occasionally beam a topic of interto a community.

Central Ohio's Zinnia Crop Grows More Bountiful Each Year

Window boxes, gardens, flower pots — we don't know where WBNS listeners plant these zinnias, but every year for the past 5 years, they have written for thousands of them. Each Spring WBNS Radio personalities offer free zinnia seeds in exchange for a post card bearing the listener's name and address. At right you can see how the WBNS zinnia gardeners are

thriving. This year listeners in 281 towns, representing 74 of Ohio's 88 counties responded to our flower promotion. We mailed out 19,837 packages of seeds—an increase of 7,463 in the past 5 years. From Lake Erie to the Ohio River, "Everything's Coming Up Zinnias" in WBNS Radio country. It's a fertile field to plant your seeds, too.

WASHINGTON WEEK

It was anything but a sleepy August for the broadcasting industry as far as the Congress was concerned.

The outstanding accomplishment, of course, was passage of the bill liberalizing Sec. 315 of the Communications Act, making it possible for broadcasters to present major party presidential candidates without having to give equal time to splinter party candidates.

Obviously, this bill would have had a tough time getting anywhere during a regular session. Only the pause between conventions and electioneering, during which the networks made plans for Kennedy-Nixon debates, forced Oren Harris & Co. to permit passage under suspension of the rules.

Put this also down as a sort of an accomplishment: Rep. Harris, as chairman of the House Commerce Committee and legislative oversight subcommittee, had finally got through Congress specific legislation forcing the FCC to enter new regulatory fields (See 29 August WASHINGTON WEEK).

The idea of bringing networks under regulation has been postponed until next year. Action even then is doubtful. Also, barring further developments, it appears that Harris will be satisfied with the station fines, etc., and will make no new effort next year to increase the fines and to add suspension of stations licenses for periods of up to 10 days. These were the changes the Senate made in the regulatory bill after it left the House.

The FCC had the challenge squarely in its lap with respect to providing more tv stations for the American public.

The military said finally and flatly that it would not turn over any of its spectrum space. That means that the present 12 vhf and 70 uhf channels must do.

It also means that the FCC is faced with that same old problem dating back to the Potter hearings in the 83rd Congress of how to get uhf to work.

The Commission's \$2-million experiment in making uhf work in the toughest part of the nation—the man-made canyons of New York City—assumes critical importance.

Most likely outcome of successful experimental use of uhf would be a move toward shifting all tv east of the Mississippi River to uhf. This would cause roars of anguish and perhaps years of battling before present tv stations would surrender their vhf channels. But it could come.

For the immediate future, however, it looks as if something very much like American Broadcasting's "drop in" plan will be adopted as an interim measure. Under this plan mileage separations would be reduced so new vhf station assignments could be made in major markets currently with fewer than 3 vhf stations. Most established stations will also fight this one.

Also during the August lull, the FCC sharpened up the issues with respect to Miami channel 10 and Boston channel 5, one of which was declared lost to the present operator and the other of which was thrown open for a new contest: these are precedent-setting cases.

Public Service TV, present Miami operator, along with two losing applicants for the channel, were ruled out and the channel was given to the lone remaining applicant by default, L. B. Wilson. WHDH, Inc., was told it must undergo a new contest with black marks against it and competitor Massachusetts Bay TV. All of this, of course, for alleged improper approaches to Commissioners and politicians during the original contests.

Both cases will go to the courts.

FILM-SCOPE

5 SEPTEMBER 1960
Copyright 1980
&PONSOR
PUBLICATIONS INC.

Several king-sized helpings of syndication business will likely be taken around or after the Labor Day holiday.

They are:

- Olympia Beer was ready to close with CNP on a 30 market deal for Blue Angels through Bottsford, Constantine & Gardner. (Olympia, which dropped out of syndication last year, will be CNP's third new major regional account signed in recent weeks.)
- R. J. Reynolds (Esty) was checking over its 60-second syndication buys and was looking for new availabilities in its 100 markets.
- Standard Oil of Indiana (D'Arcy) was talking about dropping its news and picking up more syndication.

Meanwhile last week this business was put in writing: Shamrock Oil (McCormick) made an 11-market regional deal for ITC's Best of the Post, and CBS Films' Deputy Dawg hit the \$750,000 mark with a new total of 75 markets sold.

CBS Films has hit the jackpot in finding choice time clearances for Lay's Potato Chips' regional of Deputy Dawg.

In 44 of its 45 markets the cartoon series comprises the fifth show in the early evening strip occupied on the other four days by Kellogg's established national spot shows.

The similarity of Lay's and Kellogg's products and their cartoon programing means that the regional advertiser has scored near perfect planning in getting its new show before the right tune-in audience.

Syndication regionals are becoming more and more of an annual revolving door and the statistics indicate the chances are against a buyer staying with the same show (or even the same syndicator) year after year.

In the 17 regionals of 1959 and 1960 listed here, the show is the same in only six cases and the syndicator is the same in only nine of them.

^{*} not in regional syndication

Westinghouse got this surprise out of its convention commercials promoting its local public affairs tape shows: station men began writing in to ask for them.

Leading the list is Reading Out Loud with 89 requests, and the most wanted episodes (which are being distributed gratis) are two in which candidates Kennedy and Nixon read to their respective families.

Felix the Cat Creations will try to quadruplicate the success of its Felix series now being handled by Trans-Lux TV.

Pilots are now being shown for three new cartoon series: The Kewpies, Don Poco, and Albert and Cholmondeley-pronounced, of course, Chumley.

Screen Gems' national spot show Huckleberry Hound (Kellogg's) is finding both promotion and public service values in the 1960 elections.

The theme Huckleberry Hound for president is being promoted via campaign buttons and Dell Comics and Golden Records and, at the same time, the campaign is intended to familiarize children with the mechanics of an election.

If you wondered, after reading that item in 22 August FILM-SCOPE, how come CBS o&o bought that batch of syndication shows from everybody but CBS Films, here's the explanation:

CBS Films had already sold out everything it had in the L.A. market.

John Wayne and UA will take a page out of Walt Disney's book in using tv to promote their feature film, The Alamo.

It's understood that ABC TV's 14 November John Wayne special will be little more than a trailer for the picture plus some behind-the-scenes stuff.

The long-heralded conquest of the syndication industry by the motion picture companies has simply never taken place.

The plunge into syndication on either the domestic or international front by companies such as MGM, Warner Bros., 20th Century-Fox, UA, and Paramount in the past two seasons has become important to the industry only in liaisons such as Ziv-UA and 20th-NTA.

The glaring exception: Screen Gems (Columbia) which got in early and on the ground floor years ago.

Videotape Productions points out that tape duplicate costs are down 20% from last year.

However, more and more advertisers are using tape-bred kines for spot use since copies in quantity are cheaper on film than tape—and the quality of such kines is now very high, unlike quick kine processing of the early days.

A mystery which Westinghouse producer Ben Park was unable to solve while doing interviews in Continental Europe was the amazing familiarity of non-Engglish speaking people with U. S. tv commercials slogaus.

The slogans of cigarettes such as Winston, Marlboro and Lucky Strike were known in countries where the products aren't even sold, and by people who had no other knowledge of English.

The trade got a chuckle out of a line in a wire of thanks Dick Nixon Jack Paar for the reactions derived from the candidate's appearance on that ITV show.

The line: "I know now why your Hooper (sic!) rating continues to be one of the his in tv history." For the record: the referred to rating came from Arbitron.

Still another rep looms as a hot competitor for those stations due to unhinge f CBS Spot Sales: TvAR.

The stations: WBT-WBTV, Charlotte; WTOP-WTOP-TV, Washington; WJXT, J sonville.

You've been around the business a long time if you can recall when:

- Henry Ford Sr. sponsored his favorite vocal group, the Greenfield Village Choir.
- P&G had 40 segments of soap opera running a week.
- Chandu the Magician drew several mailbags a week loaded with quarters.
- JWT knocked off the Ford, RCA and Owens Illinois Glass account in a row.
- The 10-year-old son of the agency's president—who took cornet lessons—gave the to the tunes selected by the orchestra leader of a Sunday night network program.
- NBC topped the competition with \$30 million in gross billings. (The figure for TV last year was \$235 million.)
- The program department head of an agency ranked several grades above a m buver.
 - Amos 'n' Andy, now being laid to rest by CBS radio, were billed as Sam 'n' He

Time was when a tv network sales department could take a breather this time the year, but the new methods of selling has put this in limbo.

What with spot carriers, daytime spreads and short term orders, network selling definitely become a year-around season.

Madison Avenueites thought Jerry Lewis' crack that his "funny bone is not tieby a statistic" (meaning ratings) even less hilarious than much of his material has on ty.

The riposte: Does Lewis also scorn that other statistic by which performers livegross at the boxoffice? Or has his press agent fed him the wrong line?

If you have any doubt about the utter flexibility of network to these days, this respose of a network sales manager to an agency media director's query about the ceptability of a complex and offbeat proposition:

"Send me an order."

Also, there's the answer a rep got last week about a renewal order.

Said the timebuyer: "Spot did a wonderful job but we can't afford it any me we find we can get a better deal out of going network."

That deal Nielsen has with Japan's tv station operators is based on a percentage the billings.

Part of it is being passed on to the advertiser.

For every 10 "gas dollars" spent in Indianapolis Trading Area . . . there are \$12 spent in its Satellite Markets.

Call us...find out why this big Mid-Indiana television market is different!

where else will you find satellite markets that are 15% richer and 30% bigger than the metropolitan trading zone itself...or such a widespread area covered by just one station with no overlapping basic affiliates of the same network!

WFBM-TV dominates Mid-Indiana, because it is the only basic NBC outlet penetrating this market. N.C.S. No. 3 confirms these facts... and we'll back this up with county-by-county retail sales figures for market planning. Let us show you how to test regional marketing ideas with amazing results.

America's 13th TV Market
... with the only basic NBC coverage
of 760,000 TV set owning families.

** Indianapolis—Major retail area for 18 richer-than-average counties 1,000,000 population—350,600 families with 90% television ownership!

*** 11 Satellites—Each market within WFBM-TV's verified coverage . . . Marion • Anderson • Muncie • Bloomington • Vincennes • Terre Haute • Lafayette • Danville, Illinois • Peru • Logansport • Kokomo.

The station is constantly monitora and recording Russian propaganda broadcasts for material for its naconally-syndicated Radio Moscow series. The program is presently being aired on approximately 20 radio stations.

Ideas at work:

- Aid to athletes: WQAM, Miami, co-sponsored an "Olympic Hop" with the Police Athletic League for the city's teenagers. The idea: to help raise funds to send American athletes to Rome. Over 1,300 teens paid 50¢ admission to join in the festivities.
- Helping to keep Erie clean: WICL-TV. Erie. observed the lack of trash receptacles on the resort city's streets and requested permission from the City Council to place some in strategic locations. Each of the 12 baskets provides room for two station billboards. The clean-up program cost the station less than \$200.
- Keeping up with the times: WSYR-TV, Syracuse, and WROC-TV. Rochester, cameramen captured, on tape, the flight of Echo I as it orbitted over their respective New York areas. The tapes were presented as part of the stations' local late night news show a short time later.

Programs:

- WIND, Chicago, will present a series of 10 documentaries entitled Closeun Europe—1960. Produced by Westinghouse, themes to be explored will include: what Europe thinks about American attitudes and political candidates: the failure of Germany to teach its youth about Hitler, etc.
- Viewers in the New York area will be introduced to behind-thescenes operations of tv and the people involved during a monthly halfhour show *This is WCBS-TV*. Technical problems, tours of facilities, informal visits with personnel are some of the facets to be explored.
- WIBG, Philadelphia, is offering Ilit and Run, a program produced in cooperation with the Accident Investigation Division of the city's police department. Clues, details, and license numbers of hit-and-run automobiles are being broadcast daily. Listeners are offered \$50 for any information which they furnish.

Tv and radio NEWSMAKER

Anton J. "Tony" Moe (left) and Fran McGivern (below right) played lead role in the recent Midcontinent Broadcastin personnel shift. Moe, a former vice presdent and general manager of KSO, Domoines, was named executive vice presider of the company's Madison, Wis. station WKOW and WKOW-TV. The KSO general manager post was filled by McGiver

formerly account executive of WLOW, Minneapolis-St. Paul. Moe association with the Midcontineut group began in July, 1958, with the

purchase of KSO. His background includes two years as promotion manager of KELO. Sioux Falls, S. D., and 10 years as CBS network sales promotion manager. first on the Pacific coast, and later, in New York City. McGivern began his association with Midcontinent at BFR's WLOW in 1956 as account executive for the Twin Cities outlet. Prior to that time he was a principal in a Chicago advertising agency. McGivern's

earlier radio experience includes a term as general manager of WONW, Hartford, and a 10-year association with WCFL, Chicag

H. Stilwell Brown has been appointed general manager of Concert Network. In Brown, who was brought into the Network three months ago on a consulting basis will supervise activities of the company four stations: WNCN (FM), N. Y.; WBC (FM) Boston; WHCN (FM), Hartfor and WXCN (FM), Providence. He was also coordinate operations with the ne

work's affiliated stations. Prior to his recent appointment Brown was vice president and network manager of Northeast Radio Network

Parker R. Daggett has been named general manager of K-BOX, the Balaban station in Dallas. He comes to K-BOX from the company's Milwaukee station, WRIT, where he served in the capacity of general sales manager for the past year. Prior to his affiliation with the Balaban stations, Daggett was associated with the Miller Brewing Co. for seven years as district sales

manager. The new K-BOX general manager attended the Universit of Wisconsin and served in the U. S. Navy during World War I

AUSEUM-BOUND. When Philadelphia's Art Museum opened in 1928 the news was told via WIP, then already 6 years old. Today WIP still makes friends for the Museum,

Worthwhile In Philadelphia Two more Philadelphians are about to visit their Museum. What brought them? Perhaps it was one of the unnouncements recorded by Museum officials for WIP, and broadcast at frequent intervals by this pioneer in Philly radio. WIP offers authorities of Philalelphia institutions a forum for talking to the public in their own words—and oices. It's another example of the public service consciousness which has diferentiated WIP from other Philadelphia radio stations for 38 years. It typifies Metropolitan's unique blending of traditional with new concepts to create growing audiences for WIP service . . . and your story . . . in METRODELPHIA, PA.

The seller's viewpoint

Offering what he considers one of the best arguments to both agencies and advertisers for using radio in addition or in preference to newspapers, Fred Walker, sales manager, KYW Radio, Cleveland, Ohio presents an encouraging point of view for stations and their reps. "Newspapers and magazines have done an excellent job of furnishing the advertiser and agency with their publications which can be read and studied on a day-to-day basis," he says. Our answer is to stress... the newspaper's most glaring weakness... rather than rely solely on rating books... and promotional gimmicks.

RADIO'S POWERFUL SALES WEAPON: COMPETITIVE PROTECTION

Those damn newspapers. How they ever got a big chunk of business for that X account is beyond me. Don't the client and agency realize that the newspapers in this city never give protection? That ads of their competitors' products may very well be run on the same page?" Sound familiar? Broadcasters, and salesmen in particular, have prohably been muttering in dismay about this very thing countless times since the advent of radio.

Let's face it. Our fourth-estate competitors were here before us and established the ground rules for buying space. Fortunately for us, they'll prohably be selling their wares in the same old manner for years to come. Many of the remaining papers, particularly in the larger markets after a series of mergers, act like "fat cats" and offer space on a take-it-or-leave-it basis. Let's also face the fact that some agencies are still newspaper-oriented. We're not going to change this thinking, however, by hlasting our competition and crying the hlues. Radio will get a higger slice of the advertising pie only hy hammering away at the constructive things we can offer better than any other medium.

One of our strongest selling tools is the very thing the print media have to sell around and very often try to slough off while making pitches and presentations: competitive protection. Do I hear a voice saying it's ironic that a client in both print and radio can't say much about where his ads are placed in tahloids hut at the same time can and usually does raise holy cain if not given all sorts of protection for his spots on the airwaves? Forget this negative thinking and train your weapons on the sales target.

One of the key things in building a station's image, and, just as important, in building a better image for all radio, is for a station, whether hig or small, to establish firm round rules regarding competitive protection. What this stection policy should be for a station, of course, is to its own management. Once a policy has been and adhered to, it is then up to the salesmen

tention of the ad agencies and clients. Let's not kid or selves—newspapers and magazines have done an excelle job of furnishing the advertiser and agency with their pulications which can be read and studied on a day-to-dbasis. Our answer is to stress competitive protection, to newspaper's most glaring weakness, as a powerful sal weapon rather than rely solely on rating hooks, fancy by chures and promotional gimmicks.

Hand in hand with competitive protection are the nuber of commercials we schedule per half hour or hour. like to call this the atmosphere of presentation. Here, to each station is fully on its own in setting the policy. B once established, use this weapon as ammunition in reacing the ad agencies and clients.

Field men are heing sent in greater number from mark to market to listen, to talk with station people and to fit out the character of the stations they are buying. We show welcome these people with open arms because it is the hopportunity we have to sell them on our medium—partic larly on our home grounds. I suppose there will always cynics who claim that the character and image of a station mean far less than how the numbers look on the slide ru. To them I say that the buying of radio time today is f different than it was 15 years ago. Competitive protection coupled with the atmosphere within which a commercial presented are basic requirements in the buying of radio time today.

We refer to radio as an intimate dynamo. Intimate that it is indeed a personal thing, talking directly with t consumer; a dynamo in the sense that it moves people to things, whether it's buying a product or supporting a loc crusade as a community service project. But as sellers this intimate dynamo, we must he just as much a dynam to move clients and agencies. We cannot do it by beintimate. We must do it with force, conviction, and prin what we are selling. Toot your own horn, gentlementhe newspapers certainly won't do it for you.

SPONSOR SPEAKS

Let's make it a better year

Traditionally the Labor Day weekend marks the end of the old radio ty season and the beginning of a new one.

This year it is especially true.

Looking back to Labor Day 1959, and what has happened since then, we're forced to conclude that the past 12 months have been the bitterest and most strife-torn which advertising and broadcasting have ever known.

It will be just a year in October since the Oren Harris Committee began its quiz program hearings and opened a Pandora's box of anti-radio, anti-ty, and anti-advertising criticism.

What started as a rather unimportant investigation of certain misguided quiz show contestants, exploded into a barrage of hostile attacks, particularly in a gleefully hostile press. And every phase of broadcasting and advertising was affected.

To deny that the industry was staggered and shaken by the criticism would be to deny the obvious.

But any fair appraisal of the past year's developments will certainly show that stations, networks, agencies, advertisers, and associations have made marvelous strides in correcting abuses, tightening up codes and regulations, and generally cleaning house.

We believe that broadcasters and advertising men can be proud of the positive constructive actions they have taken since Labor Day 1959.

But as the new year begins, we are more conscious of the challenges ahead than of the hectic, frenzied, and often unhappy past.

The critics and radio/tv and advertising are quieter now. But the industry faces a need for more positive leadership, and more positive image-building to restore it to its rightful position in American life.

In broadcasting, there must be a continuing drive for better and better programing. In advertising, there must be a higher standard of statesmanship to explain and interpret the business and to combat so-called "intellectual" propaganda.

We all took something of a shellacking in the past 12 menths. And we stood up under it pretty well. But let's make the ew year a better one—in every way.

10-SECOND SPOTS

A good question: WNEW-AM, N York, asked the following in a p gram notice—"Judge Crater dispeared 30 years ago. What's happe since?" Well, we had a depressithen the war, the atom bomb, tv, h hoops. . . .

Sewers folly: An announcer WFLA-AM-TV, Tampa, heard this cousin, a street cleaner, had be reprimented for looking at gir They warned him to keep his mind the gutter.

Who then?: Art Linkletter on Ho-Party asked a little boy how he selected among his classmates to pear on the tv show. Answer: "I dad's the principal."

Yer Out: Donald Corby, a one-ti CBS page now featured in the musical West Side Story, was ejfrom a Broadway Show League sball game in Central Park last wfor swatting a mosquito. It was the umpire's nose at the time.

Forgive us: Who but Bennet Cerf publishing and tv would tell about college student who left a bottle root beer and a copy of "Of Hum Bondage" at the library? When came back to search, and the librari asked if he'd found what he was loing for, he replied: "Well, I've four my pop, but I still can't find Maugham!" PLEASE forgive us.

Rapid rodent: One of our associeditors was interviewing a promin adman at an exclusive Madison A nue restaurant when a mouse racacross the floor. The adman shou at the waiter, "What's that mo doing there?" Unabashed, the waiteplied, "Why, the hundred-y dash, I believe."

She's entitled: Gail Thomas Broadcast Times Sales tells of wating Richard Boone's tv show wher aunt. When Boone, seeming unarmed, pulled a tiny Derring from his shirt and shot the outlar Gail's aunt said she finally und stood the show's title, Half Gun, Warravel.

Timing: Television Advertising Re resentatives (TVAR) has present to expectant agencies and advertise a bouncing new presentation on "no mothers." Arrival date: Labor Da
